Dear Commissioner:

Pursuant to 37 C.F.R. 1.221(b), we are forwarding a copy of the cover page of U.S. Patent Application Publication No. 2005/0029810 A1 which has been marked to show the correct surname of the inventor as "Zhao" rather than "Dong." We also attach a copy of the Filing Receipt for your reference. We respectfully request the correction of this error before issuance of the patent.

Respectfully submitted,

Date: February 22, 2005

A connector assembly (10) for releasably connecting a pair of conduits (12, 14) is disclosed. The assembly (10) comprises a first member (20) and a second member (40). The first member (20) has a nozzle (22) and the first member (20) is adapted to be connected to one of the conduits (12). The first member (20) includes an anchor (60) rotatably mounted on the first member (20). The anchor (60) has at least one resilient tab (62) extending therefrom. The second member (40) has an opening (45) that receives the nozzle (22). The second member (40) has at least one aperture (46). The second member (40) is also adapted to be connected to the other of the conduits (14). The tab (62) engages the aperture (46) to releasably connect the first and second members (20, 40).

**LICENSE FOR FOREIGN FILING UNDER
Title 35, United States Code, Section 184
Title 37, Code of Federal Regulations, 5.11 & 5.15**

GRANTED

The applicant has been granted a license under 35 U.S.C. 184, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" followed by a date appears on this form. Such licenses are issued in all applications where the conditions for issuance of a license have been met, regardless of whether or not a license may be required as set forth in 37 CFR 5.15. The scope and limitations of this license are set forth in 37 CFR 5.15(a) unless an earlier license has been issued under 37 CFR 5.15(b). The license is subject to revocation upon written notification. The date indicated is the effective date of the license, unless an earlier license of similar scope has been granted under 37 CFR 5.13 or 5.14.

This license is to be retained by the licensee and may be used at any time on or after the effective date thereof unless it is revoked. This license is automatically transferred to any related applications(s) filed under 37 CFR 1.53(d). This license is not retroactive.

The grant of a license does not in any way lessen the responsibility of a licensee for the security of the subject matter as imposed by any Government contract or the provisions of existing laws relating to espionage and the national security or the export of technical data. Licensees should apprise themselves of current regulations especially with respect to certain countries, of other agencies, particularly the Office of Defense Trade Controls, Department of State (with respect to Arms, Munitions and Implements of War (22 CFR 121-128)); the Office of Export Administration, Department of Commerce (15 CFR 370.10 (j)); the Office of Foreign Assets Control, Department of Treasury (31 CFR Parts 500+) and the Department of Energy.

NOT GRANTED

No license under 35 U.S.C. 184 has been granted at this time, if the phrase "IF REQUIRED, FOREIGN FILING LICENSE GRANTED" DOES NOT appear on this form. Applicant may still petition for a license under 37 CFR 5.12, if a license is desired before the expiration of 6 months from the filing date of the application. If 6 months has lapsed from the filing date of this application and the licensee has not received any indication of a secrecy order under 35 U.S.C. 181, the licensee may foreign file the application pursuant to 37 CFR 5.15(b).
